Hear about the latest advances in immunometabolism and interact with leading basic researchers, physician-scientists and industry leaders in the field. Discover how intracellular metabolism within immune cells and extracellular effects on key target tissues are integrated to affect whole-body physiology and responses to disease.

Keynote Speakers

Yasmine Belkaid, *USA*

Charles Dinarello, *USA*

Speakers

Antonio Abate, *USA*

Hongbo Chi, *USA*

Ana Domingos, *UK*

Marc Donath, *Switzerland*

Mark Febbraio, *Australia*

Roberto Giacomelli, *Italy*

Michael Hall, *Switzerland*

Christoph Hess, *Switzerland*

Rusty Jones, *USA*

Sue Kaech, *USA*

Claudia Kemper, *USA*

Leeat Keren, *Israel*

Lydia Lynch, *USA*

Claudia Mauri, *UK*

Luke O'Neill, *Ireland*

Matthew Spitzer, *USA*

Matthias Tschöp, *Germany*

Organizers

Marc Donath, *University Hospital Basel, Switzerland*

Christoph Hess, *University of Cambridge, UK and University of Basel, Switzerland*

Nikla Emambokus, *Executive Editor and Editor-in-Chief, Med*

Randy Levinson, *Deputy Editor, Cell Metabolism*

Fabiola Rivas, *Deputy Editor, Immunity*
