

Still time
to register!

This Cell Symposium aims to bring together leading researchers who study mitochondrial function, regulation and mechanism to build a complete picture of mitochondria as a platform to integrate signaling pathways and cellular processes in physiology and disease.

Keynote Speakers

Andrew Dillin, *USA*

Erika Pearce, *Germany*

Speakers

Johan Auwerx, *Switzerland*

Ulrich Brandt, *The Netherlands*

Agnieszka Chacinska, *Poland*

David Chan, *USA*

Navdeep Chandel, *USA*

Heather Christofk, *USA*

Adam Hughes, *USA*

Werner Kühlbrandt, *Germany*

Heidi McBride, *Canada*

Jodi Nunnari, *USA*

Dave Pagliarini, *USA*

William Prinz, *USA*

David Sabatini, *USA*

Thomas Schwarz, *USA*

Reuben Shaw, *USA*

Anu Suomalainen-Wartiovaara,
Finland

Organizers

Marcia Haigis, *Harvard Medical School, USA*

Thomas Langer, *University of Cologne, Germany*

Allyson Evans, *Senior Editor, Molecular Cell*

Danielle Loughlin, *Editor, Trends in Cell Biology*

Nicole Neuman, *Senior Editor, Reviews, Molecular Cell*
