This symposium will examine the mediators, mechanisms, and implications of neuro-immune crosstalk in the central and peripheral nervous systems. It will also cover emerging areas such as the neuronal regulation of peripheral immune function and the influence of the microbiota on the brain. We will bring together researchers from across the fields of neuroscience and immunology to facilitate discussion of exciting new concepts and developments in both fields.

Keynote Speakers

Florent Ginhoux, *Singapore*

Li-Huei Tsai, *USA*

Speakers

Adriano Aguzzi, *Switzerland*

Isaac Chiu, *USA*

John Cryan, *Ireland*

Ana Domingos, *Oxford*

Cagla Eroglu, *USA*

Cinthia Farina, *Italy*

Alison Goate, *USA*

Melanie Greter, *Switzerland*

Christian Haass, *Germany*

Elaine Hsiao, *USA*

Akiko Iwasaki, *USA*

Baljit Khakh, *USA*

Brian Kim, *USA*

Anna Molofsky, *USA*

Bosiljka Tasic, *USA*

Howard Weiner, *USA*

Organizers

Burkhard Becher, *University of Zurich, Switzerland*

Robyn Klein, *Washington University School of Medicine, USA*

Jacques Deguine, *Scientific Editor, Cell*

Ted Dobie, *Scientific Editor, Neuron*
